Reference: A12	Name: Kineton, one way
Distance: 2.0 miles	Main features: A direct route, much of it off road between Combrook and
	Kineton. There are a number of attractive alternative routes for the return, for
	example, via Castle Hill in Kineton and Butlers Marston.

Guide:

- 1. Up Church Hill, churchyard to your left.
- 2. Ignore bridleway to your right just before bend in the road
- 3. At the top of the road, immediately after left bend in road, turn right along footpath (way-marked post) after the last house in the village. Through blackthorn thicket then keep hedge on your left, through a gap in the hedge and straight across grass airstrip. Aim to right of hedge, follow hedge to field corner
- 4. Through small gap in hedge, keep on same heading across large open field towards a farm track, a large pond and a gap in the hedge to the right.
- 5. Through gap in hedge.
- 6. The path, past the pond and a single fence post leads half left cutting a corner off a large field.
- 7. Turn right, with the hedge on your left keep to the field boundary heading south east.
- 8. After approximately 220m turn left through a very small gap in the hedge and a metal kissing gate. Go diagonally right to the far corner of this field. Through a metal kissing gate and immediately left over a stile. Head diagonally right across the field passing south of the trig point, over a stile hidden in a row of trees, just to the left of a small group of trees in a wrought iron enclosure. Then straight on across the middle of the paddock, over a stile in a hedge across another paddock heading towards the far left corner, across a stile in the fence near the corner of the field and straight across the middle of a third paddock, keep just to the left of the horse training ring and over a stile in the hedge by the road.
- 9. Onto the industrial estate access road, turn left and then right at the main road and Kineton village centre is a further 500m ahead.
